The Commonwealth of Massachusetts

STATE LIBRARY

Massachusetts Executive Department Publications

1969

Publication no. 5103, approved by Alfred C. Holland,  
State Purchasing Agent.

Cumulative Listing  
of  
Publications of Massachusetts Executive Agencies  
(with some selected publications of the General Court)  
received at Massachusetts State Library  
during 1969, with Index.

This is an author-subject index, which has been simplified for convenience. In many cases the author has been shortened so that only the Department shows, skipping the specific Division which actually published the item. Exception, however, has been made in a few cases. Similarly, many authors will be found re-arranged from their official phrasing. All short-cuts were selected with caution against possible confusion.

The listing is not an exact total of all the entries that would be found in the Monthly Bulletins of 1969. Eliminated are all Legislative Documents (which are separately listed in our Index of Special Reports Authorized by the General Court). Also omitted are the various listings of Acts and Resolves of the Commonwealth, and separates of the laws of specific agencies. But we do include Rules and Regulations, as received. Further eliminated are bulletins of the various State colleges, the University, and the Hospital Schools, as are some selected items having no continuing interest.

A star indicates that the item has been issued, but not published. Our copy may be consulted here, but may not go out; nor are copies available from the author.

Continuations are indicated by a lack of paging; here our earliest publication of the series will show in curves. Frequency is shown in the entry to the best of our ability. Note that some monographs and special studies are included for which the Commonwealth is actually the second author but do not here list the principal author, although this always appears in the original listing in the Monthly Bulletin. Similarly, personal author-names are usually skipped here. In cases of title variations over the years, current title is used. When the title of a publication lacks a date, the month it was received is added and its initial is underlined. Quotation marks on a title indicate periodical publication.

Monthly, quarterly and annual reports almost invariably contain statistics. All other entries with a strong degree of statistical content are followed by (S).

All of the entries are official publications of the Commonwealth; all are in our collections and may be seen here. For listings of publications about Massachusetts (government, places, people, etc.) which have recently been added to our collections, see our bimonthly bulletin, MASSACHUSETTS MATERIAL.

To obtain any of the titles (save those which are starred) write only to the author-agency as shown; save for titles which show price, or which are marked "P.D.". For these, refer to Room 116, State House, Boston, 02133.

The Commonwealth of Massachusetts

STATE LIBRARY

Massachusetts Executive Department Publications

1970

Publication no. 4069, approved by Alfred C. Holland,  
State Purchasing Agent.

---

Cumulative Listing  
of  
Publications of Massachusetts Executive Agencies  
(with some selected publications of the General Court)  
received at Massachusetts State Library  
during 1970, with Index.

This is an author-subject index, which has been simplified for convenience. In many cases the author has been shortened so that only the Department shows, skipping the specific Division which actually published the item. Exception, however, has been made in a few cases. Similarly, many authors will be found re-arranged from their official phrasing. All short-cuts were selected with caution against possible confusion.

The listing is not an exact total of all the entries that would be found in the Monthly Bulletins of 1970. Eliminated are all Legislative Documents (which are separately listed in our Index of Special Reports Authorized by the General Court). Also omitted are the various partial listings of Acts and Resolves of the Commonwealth, and separates of the laws of specific agencies. But we do include Rules and Regulations, as received. Further eliminated are bulletins of the various State colleges, the University, and the Hospital Schools, as are some selected items having no continuing interest.

A star indicates that the item has been issued, but not published. Our copy may be consulted here, but may not go out; nor are copies available from the author.

Continuations are indicated by a lack of paging; here our earliest publication of the series will show in curves. Frequency is shown in the entry to the best of our ability. Note that for some monographs and special studies the Commonwealth is actually the second author, but here we do not list the principal author, who does appear in the original listing in the Monthly Bulletin. Similarly, personal author-names are usually skipped here. In cases of title variations over the years, current title is used. When the title of a publication lacks a date, the month when it was received is added and its initial is underlined. Quotation marks on a title indicate periodical publication.

Monthly, quarterly and annual reports almost invariably contain statistics. All other entries with a strong degree of statistical content are followed by (S).

All of the entries are official publications by the Commonwealth; all are in our collections and may be seen here. For listings of publications about Massachusetts (government, places, people, etc.) which have recently been added to our collections, see our bulletin, MASSACHUSETTS MATERIAL.

To obtain any of the titles (save those which are starred), write ONLY to the author-agency as shown; save for titles which show price, or which are marked "PD". For these, refer to Room 116, State House, Boston, 02133.

The Commonwealth of Massachusetts  
STATE LIBRARY

DOCUMENT  
1971

Massachusetts Executive Department Publications  
1971

Publication no. 6236, approved by Alfred C. Holland,  
State Purchasing Agent.

---

This is an author-subject index, which has been simplified for convenience. In many cases the author has been shortened so that only the Department shows, skipping the specific Division which actually published the item. Exception, however, has been made in a few cases. Similarly, many authors will be found re-arranged from their official phrasing. All short-cuts were selected with caution against possible confusion.

The listing is not an exact total of all the entries that would be found in the Monthly Bulletins of 1971. Eliminated are all Legislative Documents (which are separately listed in our Index of Special Reports Authorized by the General Court). Also omitted are the various partial listings of Acts and Resolves of the Commonwealth, and separates of the laws of specific agencies. But we do include Rules and Regulations, as received. We have also eliminated most bulletins of the various State colleges, the University, and the Hospital Schools, and some items that have no continuing interest.

One important change in Massachusetts documents took place in 1971. Under the state Administrative Procedures Act, general laws chap. 30A(as amended 1970) the rules and regulations of most State agencies are now published and will be found on sale in the Public Documents Room, State House. For listings and prices, send for their special catalogue.

A star indicates that the item has been issued, but not published. Our copy may be consulted here, but may not circulate; nor are copies available from the author.

Continuations are indicated by a lack of paging; here our earliest publication of the series will show in curves. Frequency is shown in the entry to the best of our knowledge. Note that for some monographs and special studies the Commonwealth is actually the second author, but here we do not list the principal author, who does appear in the original listing in the Monthly Bulletin. Similarly, personal author-names are usually skipped here. In cases of title variations over the years, current title is used. When the title of a publication lacks a date, the month when it was received is added and its initial is underlined. Quotation marks on a title or full capitals indicate periodical publication.

Monthly, quarterly and annual reports almost invariably contain statistics. All other entries with a strong degree of statistical content are followed by (S).

All of the entries are official publications by the Commonwealth; all are in our collections and may be seen here. For listings of publications about Massachusetts (government, places, people, etc.) which have recently been added to our collections, see our monthly bulletin, MASSACHUSETTS MATERIAL.

To obtain any of the titles (save those which are starred), write ONLY to the author-agency as shown; save for titles which show price, or which are marked "PD". For these, refer to Room 116, State House, Boston, 02133.
